

The University of Missouri  
Institute for Data Science and Informatics presents:

2020  
**Data Science**  
AND  
**Informatics**  
VIRTUAL  
**SYMPOSIUM**  
• POWERED AND ORGANIZED BY MUIDSI GSO •

**Nancy Potok,  
Ph.D.**

**Former Chief Statistician of  
the United States**

*The Federal Data Strategy, Modernizing the Data Sharing  
Infrastructure, and the Role of Partners*

**Thursday, August 20, 2020**

**9:00am-10:00am**

**Zoom**

The Federal Data Strategy, powered by the Foundations for Evidence-Based Policy Making Act, has opened up enormous opportunities for federal agencies and their partners in academia, state, local and tribal governments. Leveraging data to gain insights that will inform public policy and decision making is an urgent need. At the same time, we need to revolutionize the data sharing infrastructure to enhance data analytics capabilities, while expanding privacy protections for sensitive data. Academic institutions play an important role in enhancing data collaborations with all levels of government in order to increase our knowledge of the key issues of our time and to develop effective approaches addressing those issues.
